Inputs

Input	Value	Unit
-------	-------	------

Review factors Rows: 0

Results

Result	Value	Unit
--------	-------	------

Total factors N/A rows

Recorded factors N/A rows

Missing factors N/A rows

Unknown factors N/A rows

Required missing factors N/A rows

Factor completeness N/A %

Status

Status	Value	Unit
--------	-------	------

Review note N/A

Formulas

Recorded factors=Count of rows marked recorded

Missing factors=Count of rows marked missing

Unknown factors=Count of rows marked unknown

Required missing factors=Count of required rows marked missing

Factor completeness=Recorded factors/Total factors x 100%

Review note is complete only when missing and unknown counts are zero

Warnings and limitations

Completeness check only; the result does not classify shock risk or determine a work method, boundary, or qualification.
